Child Development Screenings

Ages and Stages is a set of questionnaires about children's development. It has been used for more than 20 years to make sure children are developing well. A screening provides a quick look at how children are doing in important areas such as communication, physical ability, social skills, and problem-solving skills. Ages and Stages can help identify your child's strengths as well as any areas where your child may need support. I love this screening tool because it involves the parents/guardians, child and the care provider. The parent/guardian fills out the questionnaire while playing with their child and returns it to the care provider or CCDF Coordinator for results. Based on the results, the child's individualized lesson plan can be created and if an area of concern is identified then a referral can be made to an appropriate support agency.

Many Child Care Centers are already providing a child development screening. And it may be Ages and Stages, but for those of you that are interested, parents and providers alike, I can provide copies of the following months in the ASQ-3: 2, 4, 6, 8, 9, 10, 12, 14, 16, 18, 20, 24, 27, 30, 33, 36, 42, 48. Keep in mind: your children all grow and development in differing rates. And it is okay 😊

I also have the Social Emotional questionnaires in the months: 2, 6, 12, 18, 24, 30, 36, 48, 60.

They are easy to score and if you see any area of concern, please contact me or your child's teacher or child care provider so we can give you some ideas of how to increase your child's opportunities to grow in those areas.

Any questions, please contact Trish Sterling at 906-632-5250 or psterling@saulttribe.net
