Sault Ste. Marie Tribe of Chippewa Indians
Specially Regulated Methods of Harvest Report

The use of spears, hands, dip nets, crossbows, trot lines, and bow and arrows to harvest trout, salmon, walleye, northern pike, or muskellunge are considered specially regulated methods of harvest. All members who engage in specially regulated methods of fishing are required by section 21.913 to obtain and submit the following harvest report to Sault Tribe Natural Resources Department within seven (7) days of harvest. All members are required to follow daily bag limits, size limits and seasons.

Sault Tribe Natural Resources Department, 2428 Shunk Rd., Sault Ste. Marie MI 49783. Phone 906-632-6132 Fax 906-635-4955. E-mail: fishharvestreport@saulttribe.net

Please note that a 24 hour permit must be obtained prior to engaging in specially regulated methods during the specially regulated fishing season for walleye lake systems and specially regulated streams.

Please indicate the date of harvest, the tributary or lake in which the harvest took place, the nearest crossroad, the method of harvest, the species harvested, length of fish harvested in inches, and the sex of the fish if known.
